

Shubham Vishwakarma

React Developer with 2+ years of hands-on experience building responsive and scalable web applications using React.js, JavaScript, and the MERN stack. Experienced in Redux Toolkit, REST API integration, authentication, reusable component development, performance optimization, and deployment.

EXPERIENCE

HP Software Technology India,
React Developer | Indore (M.P.)
April 2024 – Present

- Developed and maintained responsive web applications using **React.js** and **MERN stack**.
- Converted Figma designs into responsive and reusable React components with high visual fidelity.
- Implemented global state management using **Redux Toolkit**.
- Integrated **REST APIs** using **Axios** and handled asynchronous data flows.
- Built reusable React components and custom hooks across multiple application modules, reducing code duplication and improving maintainability.
- Optimized React rendering and component structure, improving Core Web Vitals and reducing unnecessary re-renders.
- Deployed applications on **Vercel** and managed code using **Git/GitHub**

PROJECT SUMMARY

Political Calendar – Event Management System
Vraksh Mitra Sanstha – NGO Platform

- Developed **React-based web applications with Admin Dashboards** for managing events and organizational content.
- Implemented **authentication, CRUD operations, REST API integration**, and protected admin functionality.
- Managed application state using **Redux Toolkit** and developed reusable, responsive React components.
- Implemented **Hindi/English multilingual support** using Context API, react-i18next, and JSON-based translations.
- Built responsive UI with **form validation** and optimized user experience across desktop and mobile devices.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, JSX, Tailwind CSS, Bootstrap

State Management: Redux Toolkit, Context API, React Hooks

Routing & APIs: React Router, REST APIs, Axios

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Authentication & Security: JWT, Authentication, Authorization, Role-Based Access Control

Performance: Core Web Vitals (LCP, CLS, INP), Code Optimization, Render Optimization

Deployment: Vercel, Render, Netlify

Tools: Git, GitHub, VS Code, Chrome DevTools, Cloudinary
